

## Media Release

### FRESHTEL SIGNS LETTER OF INTENT WITH MAJOR UK RETAIL CHAIN.

**Sydney, Australia, 20 June 2005:** Freshtel has signed a LOI with a major UK retail chain for technical and commercial testing of its product suite.

Michael Carew, CEO, Freshtel Holdings said “The Letter of Intent is a significant achievement for Freshtel and reflects our commitment to successfully establishing substantial global VoIP partners.”

The UK Retail chain will be trialling the VoIP software and network services through Voicestream Networks, a wholly owned subsidiary of Freshtel Holdings. Freshtel’s VoIP Triple Play solution is the provision of total end to end VoIP software, hardware and network services. Freshtel is one of Australia’s leading global supplier of VoIP services and currently has over 200,000 subscribers to its retail brand.

#### **About Freshtel Holdings**

Freshtel Holdings Limited is a leading Australian provider of Internet telephony products, services and networks on a global scale, all supported by a research and development division. A leader in the VoIP market with its Firefly brand, Freshtel Holdings provides a ‘Triple Play’ total end to end VoIP solution – from desktop software and VoIP network services to a full range of hardware, retailing direct to both consumers and resellers. Freshtel Holdings Limited operates through three channels, Freshtel, Virbiage and Voicestream Networks, underlined by its internal R&D arm.
